

POPPLER HILL PRESERVE

TRAIL MAP

DIRECTIONS: From Rte. 1 in Cherryfield, take Rte. 193 north 9.47 miles. Turn left onto blueberry barrens (just before blue field housing on right). Follow the main track of the gravel road. Bear left at first major fork, continue straight through any other forks or bends, keeping to the main track. At about 1.25 miles, enter some woods, then skirt the edge of a pond on the right. Continue around the pond. After the blue pump house, the road climbs back up to the barrens. Follow the road along a ridgeline looking southwest toward Tunk Mountain in the distance, with wind turbines to the west (on the right). At 2.29 miles from Rte. 193, take the left turn onto a smaller gravel road that drops down abruptly from the barrens towards the woods again. From that turnoff it is 0.13 miles to the parking spot, just past the edgeline for the woods. Pull off to the side--do not block the road. The Poppler Hill Preserve woods-road access is just ahead on the right.
